Welcome to the 12th International Conference on Transforming Healthcare with IT” 2025

The THIT Conference is India's largest international conference focusing on healthcare and information technology. Organized by the Apollo Telemedicine Networking Foundation and Apollo Hospitals, it brings together global healthcare and IT leaders to share insights and innovations.

The 11th conference convened over 1500 professionals, 100+ innovators, and 100+ speakers under the theme "From A to I, Achievement through Innovation," aiming to revolutionize healthcare through technology.

2025 Highlights

Expert Speakers:

Hear from renowned national and international speakers sharing the best ideas, strategies, advanced AI and digital innovations in healthcare.

Cutting-Edge Topics:

Learn about the latest trends in AI, cybersecurity, blockchain, ground-level innovations and other transformative technologies that are shaping the future of healthcare.

Networking Opportunities:

Connect with industry leaders, peers, and potential collaborators from around the world. Build long-term relationships and stay ahead in the healthcare IT landscape.

Conference Highlights

Exhibitions & Partnerships

Showcase your products, services, AI technologies, and innovations at THIT 2025. Our exhibition space is designed to maximize exposure to leading healthcare professionals, decision-makers, and influencers. This is a unique opportunity to engage directly with a highly targeted audience, demonstrate cutting-edge technologies, and facilitate valuable networking opportunities.

Exhibition Booths

Our exhibition area will feature booths from top companies and organizations dedicated to enhancing healthcare delivery. Participants will have the chance to interact directly with attendees, fostering meaningful business development.

Partnership Packages

We offer a variety of sponsorship packages tailored to meet your organization's needs, whether you're looking to gain premium visibility or support specific conference sessions. Secure your spot today and be part of the global movement to improve healthcare delivery.
