# International Health Dialogue 2026

Convergence of two eminent international conferences – IPSC (International Patient Safety Conference) & THIT (Transforming Healthcare with IT)

The International Health Dialogue (IHD), an initiative of Apollo Hospitals Group, has evolved over the past 13 years into a globally respected platform driving healthcare innovation, patient safety, and system-level transformation. IHD is anchored in three powerful knowledge streams:

- THIT – Transforming Healthcare with IT
- IPSC – International Patient Safety Conference
- HOPE – Healthcare Operations & Patient Experience Conference

THIT stands among India's premier international conferences at the intersection of healthcare and technology. It convenes some of the brightest minds—innovators, policymakers, clinicians, and industry leaders—from India and across the world to exchange ideas on technologies shaping the future of modern healthcare.

**Global Voices. One Vision. Join us as we reimagine healthcare for a better tomorrow.**

## What's New in THIT 2026

### THNX Innovation Dome (First Time)

A brand-new startup and innovation hub for live demos, pitch sessions, and curated investor connects.
